

Corporate Profile

2010

Save the Earth, Go Green! —

“We defy the challenges of the 21st century”

“Our products do more than lead the competition and serve our users without failure.

They will continue preserving the earth for citizens of the 22nd century.”

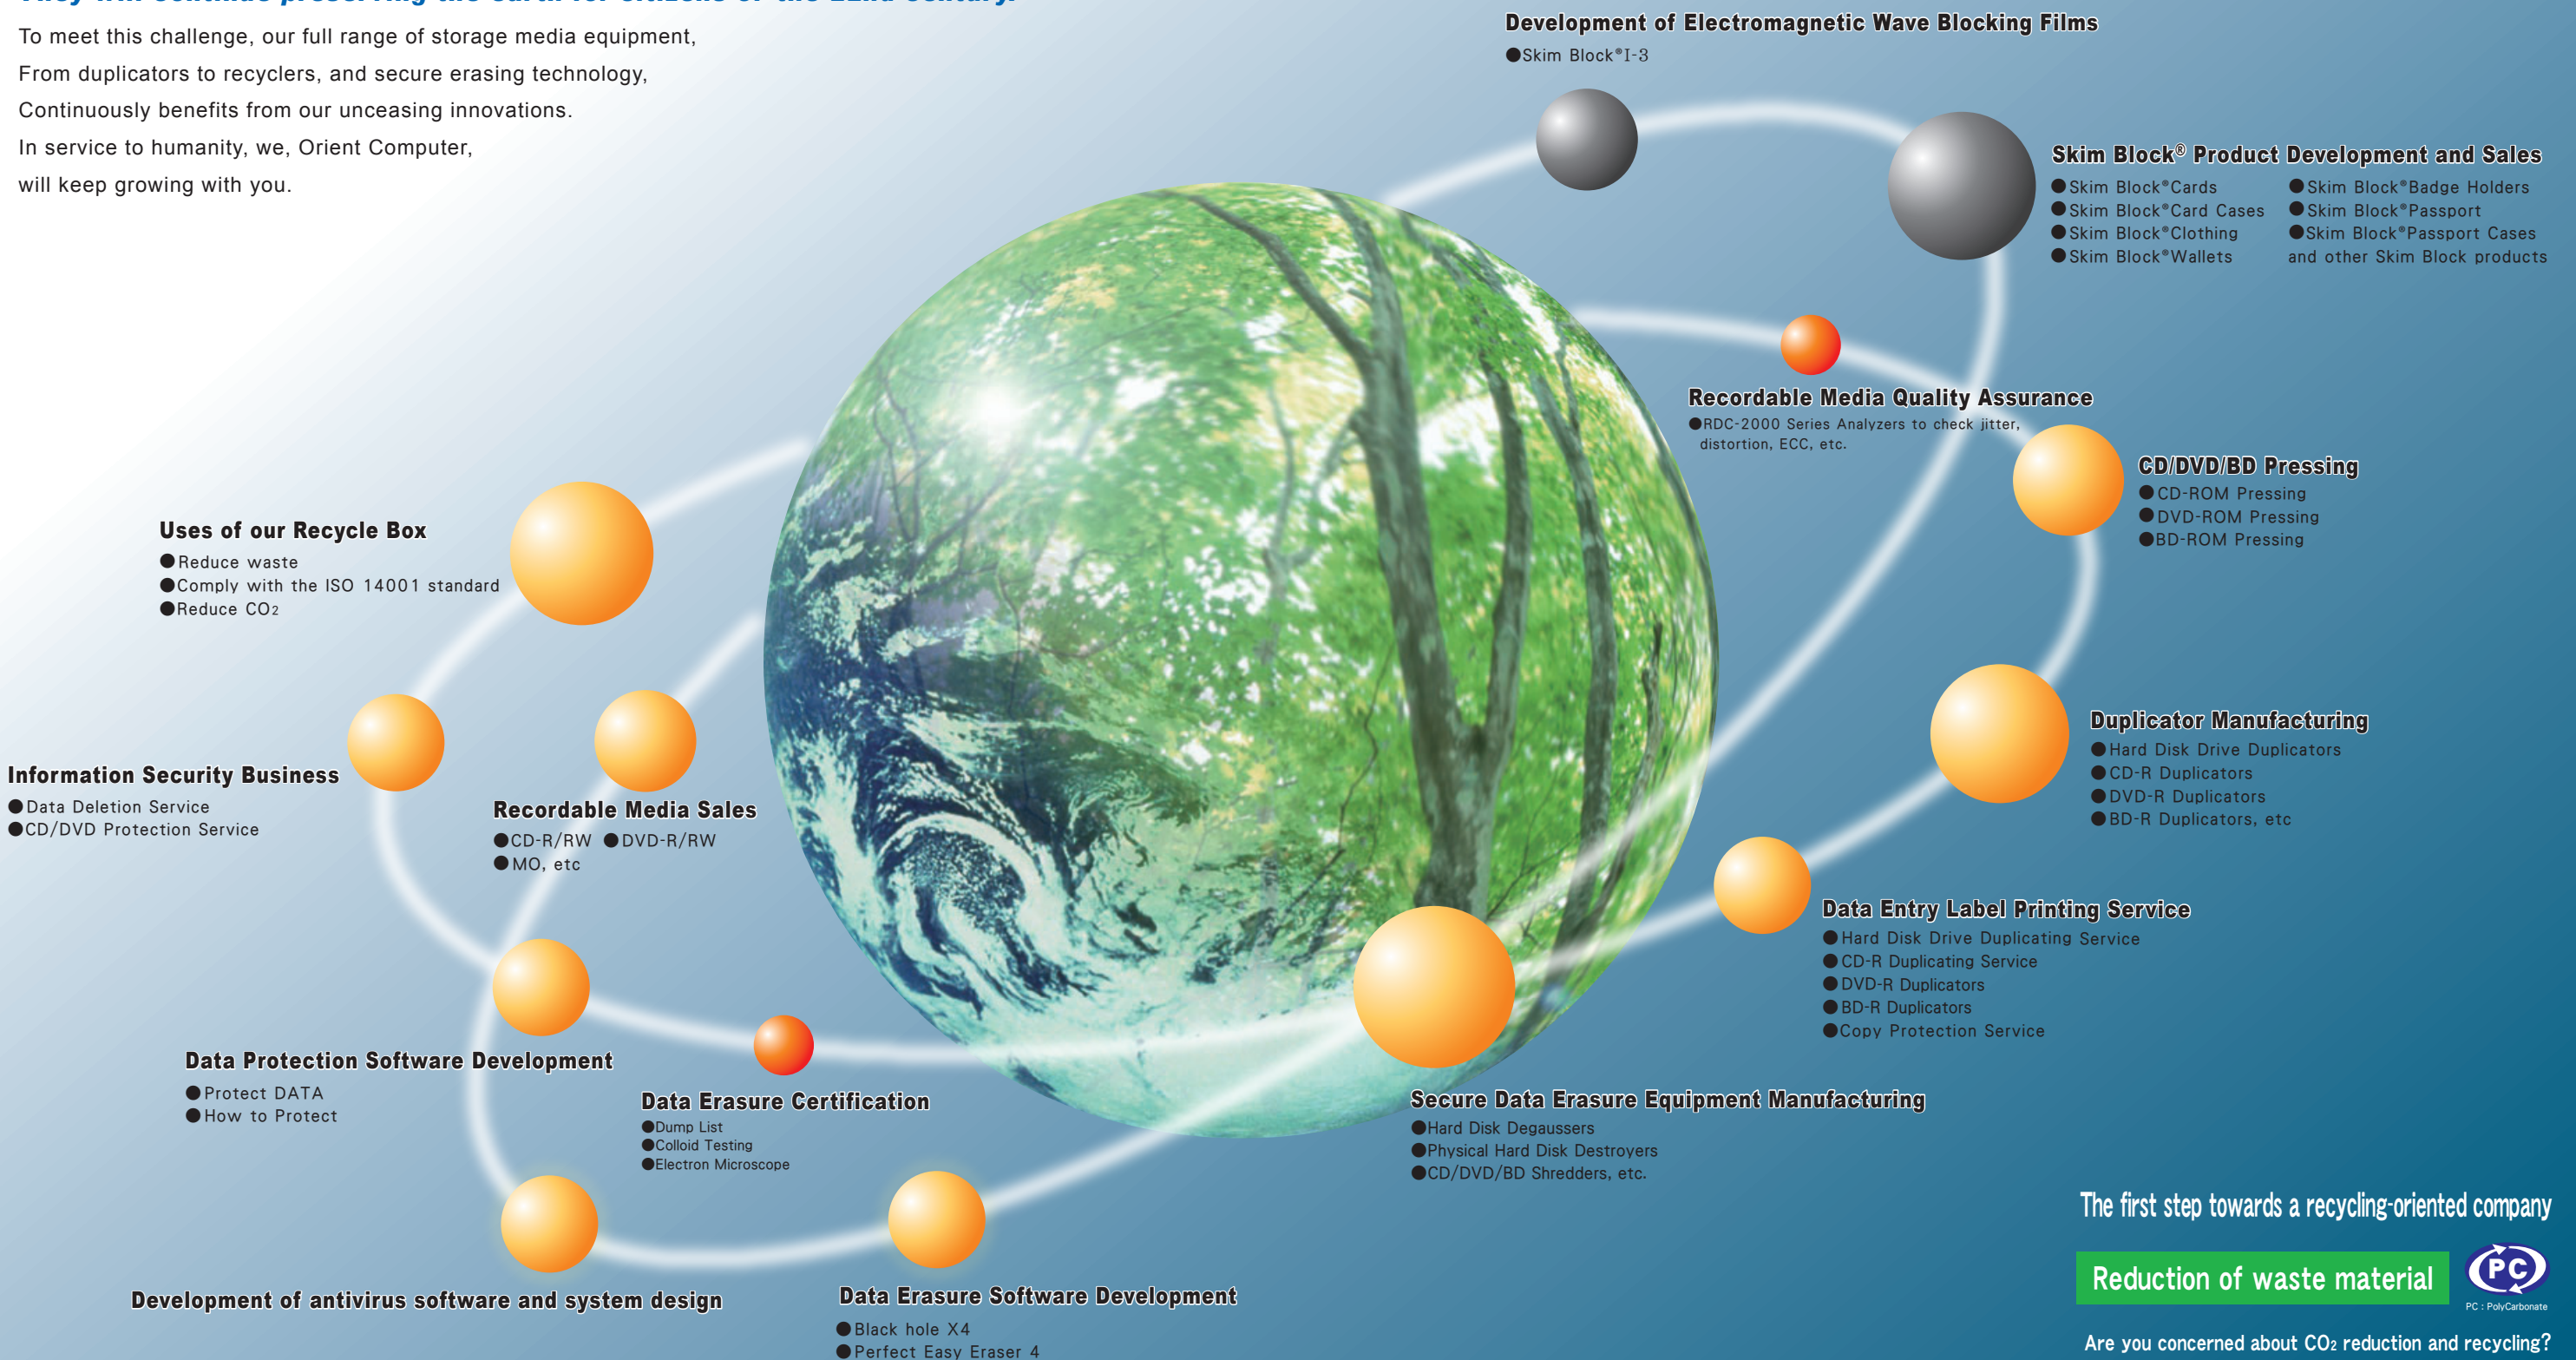

To meet this challenge, our full range of storage media equipment,

From duplicators to recyclers, and secure erasing technology,

Continuously benefits from our unceasing innovations.

In service to humanity, we, Orient Computer,

will keep growing with you.

The first step towards a recycling-oriented company

Reduction of waste material

Are you concerned about CO₂ reduction and recycling?
We aim to become earth-conscious.

Connecting people and dreams, advances in manufacturing —

As a maker of computer equipment, we have always combined progress in technology with concern for the environment. While doing so, we have helped many busy customers expand their business and realize their dreams. At Orient Computer, our pursuit of technological advances will never cease to benefit humans and the earth, and deliver trusted products.

Secure Data Erasure Business

We provide ways to prevent leakage of sensitive information

- Development, manufacture, and sales of data erasing machines for recordable media
- Development of security software

News reports have provided numerous examples where discarded computers have coughed up various kinds of sensitive corporate and secret information. Orient Computer has gained trust from our customers by proposing ways to prevent leakage of sensitive data, by developing data erasure devices for various data storage media, including the "Hard Disk Crusher", a degaussing machine that erases the entire magnetic information stored in a hard disk drive. Development of various models has proceeded by popular demand.

Duplicator Business

With a grasp of the latest trends in engineering and recordable media

- Development, manufacture, and sales of duplicators and conversion machinery for all kinds of recordable media (CD-R, DVD-R, BD-R, hard disks, floppy disks, MO, tapes, etc.)
- Development, manufacture, and sales of recycling equipment for recordable media
- Maintenance Services

With rapid advances in technology come new assortments of recording media. Orient Computer will be first on the scene with duplicating equipment to meet your needs.

Pressing and Copying Services

As a duplicator manufacturer, high quality, low prices, and peace of mind come naturally

- CD, DVD, and BD Pressing
- Copying services for CDs, DVDs, BDs, floppy disks, and all kinds of media

We spare no effort to deliver quality. Besides naturally the accuracy of copied data, we also inspect every individual unit to make sure every package is dust-free.

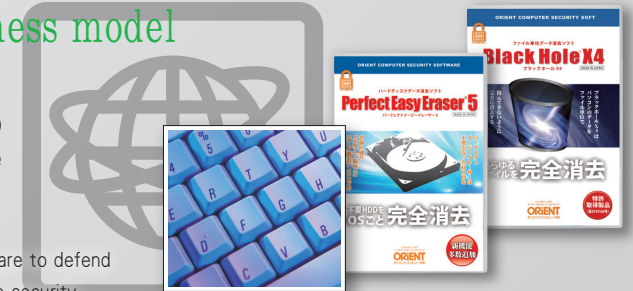

System Development and Software Development Business

Proposal for detailed system development and security software matched to your enterprise's business model

- Total System Design
(Banking systems, online systems, online capital systems, etc.
Preparation of systems to support a variety of business scenes)
- Development and sales of security software
(Data erasing software, data protection software, etc.)
- Development of antivirus software

Not only does Orient provide data protection software and erasure software to defend IT systems from various risks, we also propose solutions for total system security.

Data Erasing Service and Recycling Service

On behalf of the future, each and every little bit of relief for the earth

- Recycle both media and paper while protecting the secrecy of your data.

As a maker of computer equipment, we developed a system to recycle both paper and recordable media while preserving the secrecy of sensitive data in a safe, simple manner. We used our strength in developing earth-friendly products.

Recordable Media Sales

A full lineup to meet all needs

- Development, manufacture, and sales of CD-Rs and other supplies
- Complete range of CDs, DVDs, floppy disks, and other recordable media
- Manufacture and sales of security software

We offer a complete arrangement of products to meet special needs, such as superior waterproofing in CD-R, DVD-R, and other media.

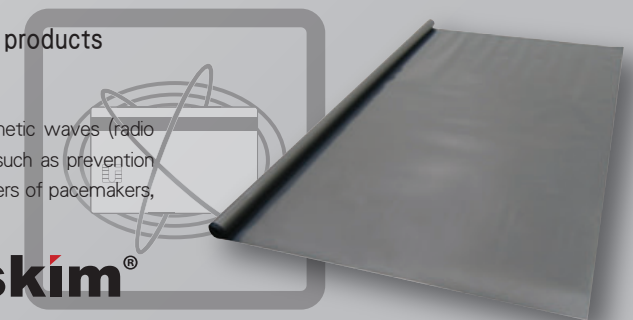

Skim Block® Business

Products for safety and security in daily life

- Development, manufacture, and sales of Skim Block products

Development, manufacture, and sales of Skim Block products
We developed a film that blocks or controls transmission of electromagnetic waves (radio waves). Development, manufacture, and sales are ongoing for products such as prevention of skimming from contactless IC cards (RFID cards), clothing to protect users of pacemakers, and other products for daily life.

Pioneer in total security solutions for software and hardware —

With consistent strengths from development to manufacturing, Orient Computer grows from nationwide to worldwide, and expands its business.

Moreover, our aggressive tackling of environmental problems, developing Recycle Boxes to turn used resources into ecologically friendly merchandise, makes positive contributions to an ecology-conscious society.

Orient Computer knows the importance of connecting with customers in all corners of the world, creating new opportunities for business, soaring together.

Corporate Overview

Company name	Orient Computer Co., Ltd. (former company's name:Orient Instrument Computer Co., Ltd.)
Established	April 1992
Address	[Tokyo Main Office] Yamaguchi Bldg., 2nd Floor, 6-20-12, Nishi Shinjuku Shinjuku-ku, Tokyo, 160-0023 [Osaka Main Office] 32F, Crystal Tower, 1-2-27 Shiromi, Chuo-ku, Osaka, Japan 540-6032
President, CEO	Kanki Kanazawa
Paid-in capital	218,200,000 yen (as of July 2010)
Business areas	Development, manufacture, and sales of computer related products Recycling of storage media and paper
Bankers	Kansai Urban Banking Corporation(Kyoubashi branch) Syoko Chukin Bank(Huneba branch) Sumitomo Mitsui Banking Corporation Mizuho Bank(Umeda branch) Kinki Osaka Bank (Main branch) Mitsubishi Tokyo UFJ Bank(Osaka Kyobashi branch)
Related firm	Media Service Co., Ltd.
Major shareholders	Kanki Kanazawa Resona Capital Co., Ltd. Daiwa SMBC Capital Co., Ltd.

Company History

1992	● Orient Instrument Computer Co., Ltd. founded with capital of 11,000,000 yen
1993	● Began sales of hard disk and MO disk duplicators
1994	● Began sales of ZIP disk and tape converters
1996	● Development of Japan's first CD protection
1997	● World's first sales of "74+α" 80 minute CD-R media
1999	● Development of cutting based recycling system for CD media
2000	● Began sales of "ROMCA" card shaped CDs in cooperation with Mitsubishi Kagaku Media Co., Ltd. and Memory-Tech Corporation
	● Began sales of hard disk duplicators copying directly from notebook PCs
2002	● Japan's first sales of Hard Disk Crusher, instantaneous entire hard disk erasing machines (degaussers)
	● Began sales of labeling and sealing machines for CDs without holes
2003	● Began recycling storage media and paper
	● World's first sales of data erasing machines for notebook and desktop PCs
2004	● World's first manufacture of Eco-mark CD-ROM media and P cases
	● Began sales of high quality "Made in Japan" DVD-R media
	● Began sales of Caramel, the world's smallest CD wrapping machines
2005	● Began DVD protection service
	● Began sales of Eco-mark (ecologically friendly) DVD-R media
	● Began sales of Skim Block film and Skim Block cards
2006	● Began sales of mobile phone protectors
	● Began sales of clothing that blocks radio waves (popular with users of pacemakers)
	● Capitalization increased to 18,200,000 yen
	● Began sales of HOW to PROTECT, software to protect executable (.exe) files
	● Began sales of Perfect Easy Eraser, PC data overwriting and erasing software
	● Began sales of PROTECT DATA, data protection software
	● Began sales of Hard Disk Crusher models compatible with vertically recorded hard disk drives
	● Began sales of HC Breaks-NSA3, physical hard disk drive destroyers
2007	● Began sales of VAI series automatic CD/DVD duplicators
	● Began sales of USB media duplicators
	● Began sales of Perfect Easy Eraser 3,
	● PC data overwriting and erasing software certified by RITEA
2008	● Built continuously operating large size hard disk erasing machines (degaussers)
	● Built automated, continuously operating 5-level CD/DVD duplicators
	● Began manufacturing automated multiple USB memory copying machines
	● Began manufacturing LAN cables insulated against electromagnetic noise
	● Obtained FIPS (U.S.) registration of Skim Block products and began worldwide sales
	● Approved Skim Block products by FIPS 201 in USA
	● The head office moved to Tokyo
	● Applied for patents for Skim Block products in EU (will apply in USA and Korea in the near future)
2009	● Corporate name has changed to Orient Computer Co., Ltd.
	● Increased capital by US\$200,000. (Current capital is US\$1,382,000) US\$1 = 100 yen
	● Version upgrade to Perfect Easy Eraser 3.6, PC data overwriting and erasing software
	● Version upgrade to Black Hole X3, data overwriting and erasing of files and folders
	● Began sales of Breaks Easy 2 hard disk physical destruction machine
	● Development of Skim Block LAN Cable, reducing leakage of electromagnetic waves
	● Opening of Hong Kong office
	● Began sales of Express Series of high performance CD/DVD/BD duplicators for large volume manufacturers
	● Increased capital to 158,200,000 yen
	● Began sales of new models of Hard Disk Crusher, HC3400S and HC2000S, to handle perpendicularly recorded hard drives
	● Began sales of new model of Hard Disk Crusher, HC3800SP, with built-in LCD screen, and handling perpendicularly recorded hard drives
	● Began sales of V Series of tower model CD/DVD/BD duplicators
	● Began sales of DVD4600AV autoloading CD/DVD/BD duplicator
2010	● Began sales of Bravo Pro Xi series of autoloading CD/DVD/BD duplicators
	● New version Black Hole X4 secure file erasing software, replacing Black Hole X3
	● New version Perfect Easy Eraser 4.01 secure hard drive erasing software, replacing version 3.6
	● Began sales of Traveler Security Card to prevent skimming crimes during overseas travel
	● Began sales of Breaks 5 hard disk physical destruction machine
	● Began sales of Forensic Dossier high performance hard drive duplicator
	● Began sales of new model of Hard Disk Crusher, HC7800S, to handle perpendicularly recorded hard drives
	● Began sales of new version of Skim Block Apron with increased effectiveness in blocking electromagnetic radiation
