

Desktop type magnetic data erasing machine

# HC3800SP-L

**Smallest but Strongest! The highest power hides in a compact size**

**World's highest**

**Best value in its class**

**Magnetic field**

**14,000 Oe**  
(1,117 kA/m)

The first desktop degausser, with a built-in certificate production feature

**Erasure certificates made here**

**World's first**

Bar code reader scans HDD information for easy entry of erasure records into a database

# Erasure log management system

The HC3800SP-L generates a magnetic field of 14000 Oe, the most powerful in its class. The world's first erasure log management system makes a database of erasure logs in the blink of an eye using a bar code reader. Issuance of erasure certificates makes this machine the most thorough assurance against information leakage.

Easy operation using LCD screen

Electric charge counter

Erasure operation counter

**Desktop type machine with numerous rarely found features**

- World's first erasure log management system
- Incredible 14000 Oe magnetic field
- Erasure certificates produced
- Shielded against leakage of magnetic fields (No danger to humans or other instruments)
- High density, vertically recorded drives OK!
- Easy operation using an LCD screen.
- Compact size with carrying handles

※Computer and bar code reader must be purchased separately. Microsoft Word and a printer are required in order to print erasure certificates.

## Erasure log management system reads bar codes on HDDs in the blink of an eye, makes a database of erasure records, and issues erasure certificates.

※Computer and bar code reader must be purchased separately. Microsoft Word and a printer are required in order to print erasure certificates.

## The HC3800SP-L greatly improves work efficiency in data erasure management.

### ■ Specifications

Model no.	HC3800SP-L
Media handled	"3.5 inch hard drives including drives from servers, and any kind of magnetic recorded media"
Electrical charging time (per operation)	Abt 18 seconds/1 time
Data erasure time (per operation)	Abt 0.1 seconds
Magnetic field generated (Max)	1,117 kA/m (14,000 Oe)
Power requirement	DC100-240 V 50/60 Hz
Rated power consumption	80 W
Outer dimensions	236(W)×248(H)×480(D) mm
Dimensions of slot area	110(W)×45(H)×190(D) mm
Weight	約 22.9 kg
Operating environment	Temperature: 5 to 40°C / Humidity: up to 80% (non-condensing)
Accessories	Operation manual / Spacer set / Power cable

The HC3800SP-L is especially well suited for:

Erasure service  
companies

Corporate system  
administrators

ISO certification  
holders

Public offices  
and large enterprises
